Bamboo Table tops

Product specifications

- Rounded edges and corners
- Top thickness: 2 cm
- Made from sustainably grown and harvested bamboo, specifically the Moso (Mao Zhu) variety
- All tops use European E1-level glues and feature a German wear-resistant UV-cured top coat
- Bamboo releases 35% more oxygen than an equivalent grove of trees
- Plants are harvested by hand at maturation (roughly 5 years of age), preserving root structure
- No pesticides or fertilizers are used
