- Get connected, stay connected
- Your ears, your style
- A perfect fit for better sound
- App-based customization and control
- All-day battery life
- Simple, qi wireless charging
- Work to workout
- Designed for sustainability

## Product Features

### Your voice, crystal clear

With Zone True Wireless Bluetooth earbuds your voice sounds crystal clear, even in noisy environments. Three mics in each earbud (6 total) distinguish your voice from other sounds through a combination of advanced beamforming, cascaded noise reduction and dynamic processing. The innermost mic captures your voice through bone conduction and, combined with fabric that helps eliminate wind noise, delivers professional-quality sound no matter your surroundings. Conveniently control mic gain with the Logi Tune app.

### Zone into your world

Zone True Wireless Bluetooth earbuds provide outstanding audio quality. Adaptive Hybrid ANC blocks distracting noise and helps you focus while Transparency Mode is handy for chatting and hearing people or traffic noise without removing your earbuds. Use the Logi Tune app to turn on/off, or simply tap the earbud. Large 12mm drivers deliver full-bodied bass tones, complementing your experience and enjoyment of the full frequency spectrum.

### Get connected, stay connected

Connect Zone True Wireless Bluetooth earbuds to your computer and smartphone simultaneously. Use native Bluetooth to seamlessly connect to your smartphone along with the included USB receiver that plugs into your computer for extra-reliable wireless connectivity. Advanced multipoint technology makes it easy to seamlessly switch between the two active audio sources and never miss a call.

### Your ears, your style

With Zone True Wireless Bluetooth earbuds, the obsession with product design provides a beautiful expression of elegance, simplicity and professionalism that positively projects your style and personality. Available in two contemporary colors, these wireless earbuds look fantastic both on and off camera. Feel confident looking your best with an earbud style and form factor that's your choice for you.

### A perfect fit for better sound

Ears, like the people they belong to, come in all shapes and sizes. Your own ears might even be slightly different. Zone True Wireless Bluetooth earbuds come with removable ear gels in three sizes so you can choose the perfect fit for each ear to optimize acoustic performance and noise isolation.

### App-based customization and control

Open Logi Tune on your smartphone or computer to easily configure, control, and customize your Zone True Wireless Bluetooth earbuds. From the elegantly intuitive dashboard you can manage mute, view charging status, modulate sidetone controls, and tweak the 5-band EQ sliders - or choose one of the custom presets.

### All-day battery life

A single battery charge keeps your earbuds ready for meetings (up to 6 hrs/ANC on; up to 6.5 hrs/ANC off) and music (up to 7 hrs/ANC on; up to 12 hrs/ANC off). 5 minutes in the charging case yields an extra hour of talk time. View battery status in the Logi Tune app.

### Simple, qi wireless charging

Zone True Wireless Bluetooth earbuds support Qi wireless charging so you don't have to plug and unplug your earbuds each time - just place them inside the case on top of the charger and you're quickly good to go! Of course, you can also use the included USB-C to A charging cable.

#### Work to workout

Rated IP68 for resistance to moisture, sweat, dust, dirt and sand - even brief immersion in shallow water - Zone True Wireless Bluetooth earbuds keep you in the zone from work to workouts at the gym.

#### Designed for sustainability

Logitech is committed to creating great customer experiences in ways that are sustainable for the planet and society. By choosing this product, you help take care of the world's forests since the packaging is FSC certified.

## Main Specifications
