

Care instructions Aeris Swopper

Microfibre cover:

- Optimum care is ensured by using water and pH neutral soapsuds. Stains containing oil and fat should be treated beforehand with ethyl alcohol.
- After each cleaning action you should rinse with clear water. Never use chlorinated detergents.
- The seat must only be treated damp, not wet, otherwise the materials used under the fabric may be damaged. Therefore, please use only a little bit of water and apply only small amounts of the cleaning detergents.
- To avoid edges, please always treat from the edge to the middle.

Wool blend cover:

- Gently vacuum the cover regularly with a soft vacuum nozzle.
- Always remove stains as quickly as possible.
- Most types of stains are easily removed with lukewarm water, possibly with the addition of a pH-neutral cleaning detergent. Always use a white, clean cotton cloth.
- Please press a dry kitchen towel or colourless kitchen paper against the fabric to absorb moisture and dirt.

Mesh fabric cover (Air: seat with multi-layer structure)

- Most types of stains are easily removed with lukewarm water, possibly with the addition of a pH-neutral cleaning detergent. Always use a white, clean cotton cloth.
- After each cleaning action you should rinse with clear water. Never use chlorinated detergents.
- The seat must only be treated damp, not wet, otherwise the materials used under the fabric may be damaged. Therefore, please use only a little bit of water and apply only small amounts of the cleaning detergents.

Artificial leather Stamskin cover:

- The cover should only be carefully wiped with a soft brush and lukewarm water.
- If necessary, use soapy water, then clean with clear water and a cloth.
- The seat must only be treated damp, not wet, otherwise the materials used under the fabric may be damaged. Therefore, please use only a little bit of water and apply only small amounts of the cleaning detergents.
- **Attention: Never use leather care products, stain removers, solvents or disinfectants.**

Artificial leather cover (Uruguay):

Wipe damp, if necessary, use a liquid detergent containing 50% water and 50% alcohol.

Felt cover:

- As a genuine natural product made of 90% wool and with a structure that is resistant to stains, it is best to vacuum the cover regularly using a soft vacuum nozzle.

Leather cover:

- Wipe with a soft, damp cloth without detergent, then then rub down with a dry, clean cloth.
- If necessary, subsequently treat with leather care products.

Cleaning of the foot ring:

Abrasion marks left from soles of shoes are best removed with a soft eraser or a soft cloth with benzine.
